CATALOG OF Highlands Nursery

Pineola, North Carolina

**KELSEY'S RHODODENDRONS,
AZALEAS, and other Hardy
NATIVE AMERICAN PLANTS
Grown in the Carolina Mountains
at 3,800 feet elevation**

Information

HIGHLANDS NURSERY SHIPMENTS are made from Pineola, N. C., freight station, and prices in this list are made on this basis. Freight and express rates gladly quoted. Via Norfolk steamship lines, deliveries to northern and eastern points are quick and rates are low.

SHIPMENTS OF "COLLECTED" RHODODENDRON MAXIMUM and KALMIAS are from my special fields in Pennsylvania and the South, depending on destination and quality of stock desired. The best clumps come from the South, from high altitudes. **"COLLECTED" RHODODENDRON CATAWBIENSE** comes only from the South.

MY NURSERIES ARE UNIQUE, being the first to grow Native American Ornamentals, and having the only large and complete stock of Hardy American Plants in existence.

SHIPPING BEGINS IN SEPTEMBER, when I send out large Rhododendrons, Kalmias and other evergreens, and bulbs and herbaceous plants, general stock going out in October and November; and in spring from about March 1 to May 15. Give shipping instructions, unless you wish to leave it to me, when I use my best judgment, but assume no risk.

EXPORT SHIPMENTS reach the most remote countries in perfect condition; I have exported for over twenty-five years, and know how to pack.

DESCRIPTIVE CATALOGS, beautifully illustrated, are mailed on request, and advice on the right way to grow Rhododendrons, Azaleas and other native plants is gladly given. Send for "How to Grow Rhododendrons Successfully." Always address

HARLAN P. KELSEY, Owner

SALEM, MASS., U. S. A.

CATALOG OF HIGHLANDS NURSERY

At my **Highland Nursery**, Pineola, North Carolina, 3,800 ft. elevation, on the crest of the Alleghany Mountains, one may see Rhododendrons, Azaleas, Leucothoës, Kalmias and Andromedas growing in all sizes by tens of thousands in single species, and nowhere else can be found such a collection of rare American plants of unquestionable hardiness—the best for American gardens.

The Carolina Mountains is the native home of the most beautiful Broad-leaved Evergreens and Ericaceous Shrubs. Highlands Nursery not only ships direct to customers, but is a great propagating plant, supplying material for my Boxwood Nursery.

DECIDUOUS AND EVERGREEN

Trees, Shrubs and Woody Vines

NOTE.—All plants are transplanted and nursery-grown, unless plainly marked otherwise.

This is a catalog of nursery-grown plants growing at my Highlands Nursery, Pineola, North Carolina.

Rhododendron carolinianum

EVERGREENS ARE MARKED WITH A STAR (*)

Rhododendrons and Mountain Laurel

"COLLECTED" CLUMPS

BY THE CARLOAD

For the area covered and effect produced, a carload of Rhododendrons or Kalmias, offered below, is the cheapest landscape proposition offered. I ship an unusual grade of splendid clumps, each plant a specimen and burlaped separately. Don't accept cheap stock, thrown into cars without burlaping, and with the fine, hair-like rootlets inevitably exposed. You will be disappointed and find it expensive in the end. While fine results may be had from "collected" Rhododendrons, particularly if purchased from a reliable source, where greatest care is used in digging and handling, results are never so sure as when nursery-grown stock is used. **"Collected" Rhododendrons and Kalmias delivered at your station by the carload. To be shipped from point determined by me.**

Rhododendron catawbiense "Collected" Clumps

Each plant collected from the open and burlaped. Prices, delivered f. o. b. your station, if east of the Mississippi river.

Car containing 200 clumps, 1 to 3½ ft., for.....	\$280 00
Car containing 300 clumps, 1 to 3½ ft., for.....	380 00
Car containing 400 clumps, 1 to 3½ ft., for.....	480 00
Car containing 600 clumps, 1 to 3½ ft., for.....	600 00
Other combinations and sizes quoted on request.	

Rhododendron maximum "Collected" Clumps

Prices in carload lots, delivered f. o. b. your station, if east of the Mississippi River, collected from open ground, and each specimen burlaped separately.

Car containing 300 clumps, 1½ to 4 ft., for.....	\$300 00
Car containing 400 clumps, 1½ to 4 ft., for.....	375 00
Car containing 600 clumps, 1½ to 4 ft., for.....	500 00

Other sizes or combinations will be made up to suit customers. It is far cheaper to buy my kind at slightly increased price, and have plants that will grow.

Rhododendron maximum and R. catawbiense

"Collected" Clumps by the Carload

Mixed cars, delivered free at any station east of the Mississippi River. Car containing 150 maximum and 150 catawbiense, collected as above, 1½ to 4 ft., clumps,—total of 300—for \$400. Car containing 250 maximum and 250 catawbiense, 1½ to 4 ft., clumps,—total of 500—for \$550.

Kalmia latifolia (Mountain Laurel)

"Collected" Clumps by the Carload

Each specimen burlaped, and highest-class clumps collected from the open, delivered free at your station, if east of the Mississippi River.

Car containing 400 clumps, 1 to 3½ ft. for \$375. Kalmia may be added to help fill any Rhododendron car at 90 cts. per clump, not less than 100 clumps in shipment.

The above "Carload" offers are made with a view of furnishing a variety of sizes that will permit of naturalistic grouping.

"Collected" Rhododendrons and Kalmia by the 100 and 1,000. The number that may be shipped in a car varies largely, depending on sizes. The minimum weight allowed per car is 16,000 lbs., with a freight rate to New York of \$96.

A car may easily be loaded much heavier, with proportionate increased freight charge, but not increasing the cost per plant.

A full car travels safer than one with a small load.

All "Clumps" offered below are collected with a good ball and are burlaped separately.

PACKING free at prices in this catalog.

SEND FOREIGN REMITTANCES by Postal Money Order, drawn on Salem, Mass., post office; or by New York or Boston Exchange. An American dollar equals four shillings, four marks, or five francs.

GUARANTEE

No guarantee, expressed or implied, is made that stock will grow whether planted by me or not.

Having no control over after treatment of plantings, or over weather conditions, it is obvious that purchaser must assume all responsibility after delivery in good condition.

All shipments travel at consignee's risk, and transportation companies must be held liable for damage in transit.

Claims for errors must be made on receipt of goods. If there is any mistake or fault on my part it will gladly be rectified.

Kalmia latifolia (see pages 4 and 9)

"And to paint these home pictures we need chiefly American material. We must face this deadly parallel:"

What We Really Plant

70% European trees and shrubs and horticultural varieties.

20% Chinese and Japanese.

10% American.

What We Ought to Plant

70% American trees and shrubs, i. e., native to America.

20% Chinese and Japanese.

10% European and horticultural.
